

## Handout from March 6, 2024:

In the chemistry unit thus far, we have been collecting two types of data.

What are some examples of **quantitative** and **qualitative** data we have collected?

### Quantitative Data

are made with instruments  
such as rulers, balances,  
graduated cylinders, beakers,  
and thermometers.

These results are measurable.

(numbers)

### Qualitative Data

use your senses to  
observe the results.
